**CAMBODIA UNIVERSITY
OF TECHNOLOGY AND SCIENCE**

Message From the Chairman

Dear Students, Faculty, and CamTech Community,

As Cambodia's economy continues to grow rapidly, our education system must evolve to support the development of local talent in critical fields such as modern technology, science, engineering, social sciences, and the arts. Recognizing this urgent need, CamTech University is committed to leading the way in building the most in-demand technical and professional skills. Recent studies show that only 30% of Cambodian university students are enrolled in science and technology programs, while the remaining 70% focus on non-STEM fields, including languages, banking, finance, accounting, and hospitality. Meanwhile, the demand for professionals skilled in data analysis, data science, robotics, automation, AI, and machine learning grows every day.

At CamTech, we aim to change the traditional mindset that Cambodia must rely on foreign experts for specialized solutions. While we recognize the value of cultural exchange and shared expertise, our priority is to empower and elevate local talent to meet international standards. Our mission is to provide world-class education and training for learners at every stage, from university students to adults who want to acquire high-demand skills, to business professionals looking to enhance their expertise. Through partnerships with universities worldwide and hands-on internships with leading local and regional companies, CamTech equips students with practical experience that often leads to career opportunities.

We are dedicated to supporting each student on their journey toward a meaningful career, whether in employment, entrepreneurship, or advanced studies. Together, let us build a future where Cambodian talent is recognized and celebrated on a global stage.

With warm regards,

Lok Neak Oknha Dr. Pung Kheav Se

Chairman of the Board of Trustees

Welcome To CamTech University

Dear CamTech Family and Esteemed Colleagues:

To achieve the vision of a digital economy and an upper middle-income country by 2030, Cambodia must build a strong foundation of human capital, consisting of highly skilled, educated, and responsible citizens. I envision CamTech University, as an innovation-focused and entrepreneurial institution, playing a pivotal role in rebranding Cambodia as a hub for knowledge, technology, and startups. Through this, we will help drive the nation's sustainable development aspirations.

Above all, my goal is to lead initiatives that educate the next generation of experts and leaders in fields such as Software Engineering, Data Science, AI, and Robotics. Our ambition is to shape our graduates into practitioners and leaders of digital technologies, which are essential to Cambodia's industrialization.

As the Founding President, I humbly invite other universities, research institutes, and stakeholders to join CamTech in building a future where innovation thrives and contributes to the advancement of our country.

Sincerely,

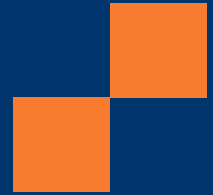

Prof. Dr. Sothy Khieng

President, Cambodia University of Technology and Science

*"During the meeting with the Founder, **H.E. Dr. Hang Chuon Naron**, Minister of Education, Youth and Sport, expressed his full support to the project of CamTech."*

University Background

The idea of establishing the university was the brainchild of Lok Neak Oknha Dr. Pung Kheav Se in 2018, with the aim of providing young talents in Cambodia with high-quality tertiary education. The university was named the Cambodia University of Technology and Science (CamTech) and received support from the Federation of Khmer-Chinese in Cambodia. Its mission is to cultivate young professional talent in science and technology, contributing to the advancement of Cambodia's economic development. In turn, CamTech aims to equip its students with both academic knowledge and hands-on training, which will enhance their employability and contribute to the nation's growth.

In March 2021, CamTech received official approval from the Royal Government of Cambodia to operate, marking the establishment of five faculties: the Faculty of Engineering, the Faculty of Arts, Humanities and Social Sciences, the Faculty of Business and Management, the Faculty of Applied Science, and the Faculty of Sustainable Built Environment.

To support the university's establishment, the Lok Neak Oknha Dr. Pung Kheav Se Foundation was founded. The Foundation provided 5 hectares of land in the Chroy Changvar Satellite City for the CamTech campus and invested over \$3 million to develop the campus, which includes the main university building, state-of-the-art facilities, a garden, and a canteen.

Vision, Mission and Core Values

Vision

To be a leading university with an international reputation for academic excellence in the fields of Science and Technology underpinned by a work-integrated learning framework.

Mission

To offer applied research and innovation-focused education to transform lives that respond to industrial development and socioeconomic growth needs.

Core Values

Integrity
Respect
Excellence
Innovation
Diversity

Our Motto

Knowledge
Reason
Character

Why CamTech?

Employability

- Project-based, work-integrated learning experience
- Entrepreneurship and leadership skills
- Teaching informed by research and innovation
- Strong industry and business linkage for job placement
- Support for startups and business innovation
- English as the medium of instruction

Outstanding Facilities

- Sports Complex: Gym, yoga, basketball, volleyball, football, table tennis and badminton
- Labs: Robotics, AI Lab4 Education, makerspace, startup studio, workshop and design studio
- Library: Digital and physical resources
- State-of-the-art campus on a 5-hectare site with a green environment

Contribution to Cambodia's Socio-Economic Growth and Development

- Addressing the challenges of Cambodia and the region
- Contributing to the Sustainable Development Goals (SDGs)
- Promoting diversity and multiculturalism

World-class Faculty Members

- Highly qualified and experienced lecturers, professors and researchers
- Engagement in cutting-edge research and industry partnerships

Undergraduate Programs

01

➤ Faculty of Engineering

In the Faculty of Engineering, we offer majors:

- Cyber Security
- Data Science and Artificial Intelligence Engineering
- Robotics and Automation Engineering
- Software Engineering

02

➤ Faculty of Business and Management

We offer majors:

- Risk Management and Business Intelligence
- Innovation and Entrepreneurship
- Sports and recreation management
- Manufacturing management

03

➤ Faculty of Arts, Humanities and Social Sciences

The faculty offers majors:

- Teaching English as a Second Language
- English for Business and Commerce
- Media and Communication Technology
- Educational Technology

04

➤ Faculty of Sustainable Built Environment

We offer majors:

- Architecture
- Interior Design
- Urban Planning
- Industrial Energy Management

School of Graduate Studies

▶ Graduate Programs

Positioned strategically, the School of Graduate Studies (SGS) offers master's and doctoral programs by research with a focus on the overarching theme: "Science, Technology, and Sustainability (STS)." At the heart of SGS's philosophy are three foundational pillars

- Academic excellence: Instills a research-oriented mindset and introduces innovative and interdisciplinary programs that blend traditional subjects with emerging fields;
- Impacts on Career: Ensures that the graduates are well-prepared for the professional landscape by integrating real-world industry perspectives into the curriculum;
- Community engagement: Bridge the gap between academia and society and recognizes the importance of nurturing socially conscious and responsible graduates.

We offer majors:

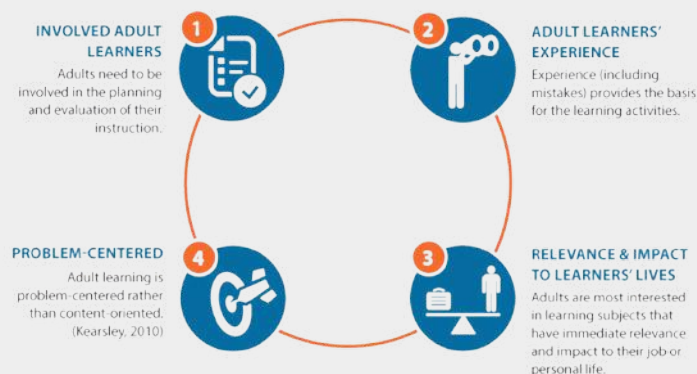

- Environmental Technology
- Technology Management
- Technology Governance
- Data Science
- Artificial Intelligence
- Cyber Security
- Industrial Technology
- Agriculture Technology
- Education Technology
- Financial Technology
- Science and Technology Studies

▶ Our Curriculum

SGS understands the dynamic educational landscape of the 21st century and tailors our curriculum to suit the needs of Cambodian graduate students. We place great emphasis on adult education and employ innovative delivery methods, including flipped learning.

Our teaching and learning principles strongly encourage:

1. Involved Adult Learners
2. Adult Learners' Experience
3. Relevance and Impact to Learners' lives
4. Problem-Centered

Tuition Fees

The tuition fees vary based on the chosen major of study. Students can pay the tuition fee for a term or a year (three terms per academic year).

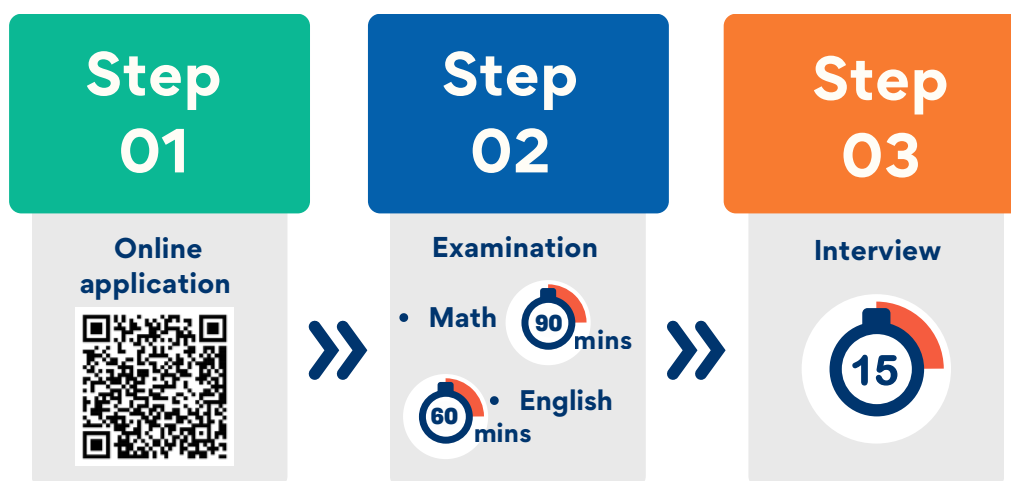

A. Bachelor's Degree (4 years)

No	Faculties(Fee based on major)	Full Tuition Fee/Term			Full Tuition	Total Tuition
		Term 1	Term 2	Term 3	Fee/year	Fee (4 years)
1	Engineering	\$1,350	\$1,350	\$1,350	\$4,000	\$16,000
2	Built Environment	\$1,350	\$1,350	\$1,350	\$4,000	\$16,000
3	Art, Humanities and Social Sciences	\$1,184	\$1,184	\$1,184	\$3,500	\$14,000
4	Business and Management	\$1,184	\$1,184	\$1,184	\$3,500	\$14,000

Other fees:

Students pay an administration fee of \$200 per year (subject to change). For this fee, students will receive free year-round access to library services, lab services, startup rooms, breakout rooms, conferences, and student ID card.

► How to Apply?

Tuition Fees

The tuition fees vary based on the chosen major of study. Students can pay the tuition fee for a term or a year (three terms per academic year).

B. Graduate programs

No	Major of Study	Master's Degree		Doctoral Degree	
		Per Term	Per Year	Per Term	Per Year
1. 2. 3. 4. 5. 6. 7. 8. 9. 10. 11.	Environmental Technology Technology Management Technology Governance Data Science Artificial Intelligence Cyber Security Industrial Technology Agriculture Technology Education Technology Financial Technology Science and Technology Studies	\$1,550	\$4,500	\$1,700	\$5,000

- The tuition fee above is for the Cambodian student. The tuition fee for an international student is USD 5,000 for master's degree and USD 6,000 for doctoral degree.

Other fees:

- The administration fee for the graduate program is \$250 per year (subject to annual revision)
- Application fee for the graduate program is \$30.

Research and Innovation Centers

As a research-intensive university, research and innovation have been a core mission of CamTech because they are the key essence to ensure scientific advancements and Cambodia's industrial development and socio-economic growth. In addition, through their high-level research and new discoveries, CamTech's academics can generate new knowledge and deliver research-led teaching. Owing to its direct and indirect advantages, since the university establishment, research and innovation centers have been founded to foster excellence in both pure and applied research, academic education, services, and scholarly collaboration.

Currently, CamTech has eight research centers.

- Comparative Education Society of Cambodia (CESCam)
- Center for Social Innovation
- Center for Buddhist AI Ethics
- China Studies Center
- Cyber Security Network (CSN)
- Center for Applied Mathematics
- Center for Socio-Economic Research
- J7 Heritage Science Lab

Campus Facilities

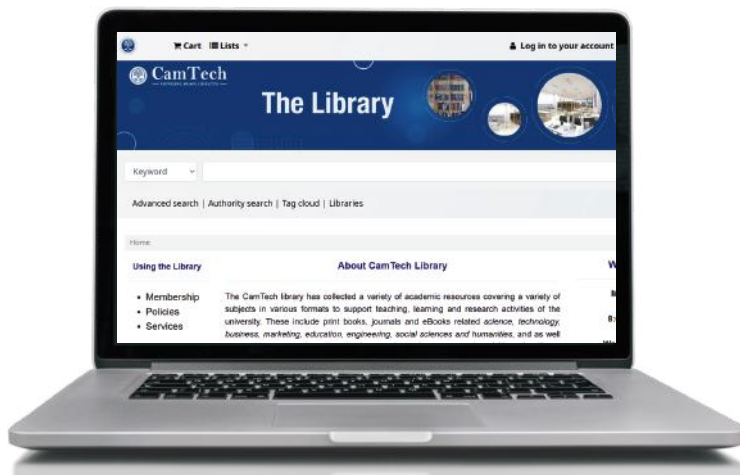

The Library

Collection

Since its establishment, the CamTech library has been a science knowledge hub for research. It houses a collection of print and non-print resources covering subject-specific topics relating to the arts, business, science and technology, social sciences, and humanities, and as well as provides access to online databases and electronic resources. The library's Online Public Access Catalog (OPAC) where you can search for items to access your patron account, reserve books, and much more is accessible at <http://library.camtech.edu.kh/>.

Catalog

- Dewey Decimal Classification (DDC 21) with 4 volumes used to classify all kinds of library items.
- Integrated Library System, namely KOHA used to maintain and manage all types of resources available in the library.

Library Services & Facilities

The following services & facilities are offered to the users:

- Personalized Library Account (Login ID & PWD to each users) through web OPAC
- Online Book Suggestions/Circulation Services (Loan, online reservation, renewal of items, etc.)
- Reference Services & Library Orientation Program
- Photocopy/Printing/Scanning
- Group Study Room (Breakout Room)
- Computers equipped with multimedia and internet facilities and TV
- Galaxy Tablets More services and facilities will be initiated in the near future.

Library Opening Hours

During academic terms	Timings
Monday - Friday	8:00 AM to 20:00 PM
Saturday - Sunday	8:00 AM to 17:00 PM
Closed on National Holidays	

Student Accommodation at Rung Reung Condo

- Type: 2-Bedroom
 - Bathroom: 1
 - Kitchen: 1
 - Size: 56.65m
 - Living area: 1
 - Elevator: 4
-

Rooms are equipped with facilities such as

- ✓ Air conditioner (Gree)
- ✓ Day & Night king curtains
- ✓ Mattress (K) and (T)
- ✓ King bed (180cm x 200cm)
- ✓ Single bed (120cm x 200 cm)

3 km away from the campus, surrounded by convenience stores and a local market.

Student Achievements

01

September 2024 to April 2025

MoEYS E-Gen Competition 2024

Team Tokkatot, 2nd-year students from CamTech University, has won First Runner-Up at the E-Gen Competition, organized by the Youth Department, Ministry of Education, Youth and Sports.

02

2025 July 4-6

Unipreneur Season 3

Team Tokkatot from CamTech University has won 1st Place at Unipreneur Season 3, organized by Khmer Enterprise.

03

2025 July 4-6

Unipreneur Season 3

Team Edspire from CamTech University has won 2nd Place at Unipreneur Season 3, organized by Khmer Enterprise.

04

2025 22 April - 21 June

Techno Innovation Challenge Cambodia

Team SERKSA from CamTech University has been selected as one of the Top 10 finalists at the Techno Innovation Challenge Cambodia 2025.

05

2025 1-30 August

Finclusion Innovate

Congratulations to Team FinEdu for earning 3rd Place at the Finclusion Innovate Competition.

06

2025 23-26 August

GCIP Cambodia Pre-Accelerator and Accelerator Program Cohort 3

Congratulations to our Architecture students for achieving 3rd Place in the Clean Tech – GCIP Cambodia Pre-Accelerator Program Cohort 3, proudly hosted by Techo Startup Center.

Student Achievements

07
2024
6-8 July | **Unipreneur National Challenge**

Team Rascals from CamTech University was among the top 6 winners in the Unipreneur National Challenge, competing against 40 startups from 19 universities.

08
2024
9-12 Dec | **SmartStart ULP Nation Hackathon Season 4**

Team Junivers from CamTech University won the "Overall Excellence" award among 16 universities.

09
2024
23-27 Sept | **APAC Digital Talent**

CamTech students, winners of the Huawei Seeds for the Future 2024, joined other Khmer students in showcasing their rich Khmer culture to the world at the APAC Digital Talent event.

10
2024
26 June | **Digital Platform Accelerator Cohort 3**

Polymer Invoice was awarded "Top Performance" in the Digital Platform Accelerator Cohort 3.

11
2024
19 March | **GCIP Cambodia Pre-Accelerator and Accelerator Program Cohort 2**

Architecture students and their fellow member for securing 2nd place in the GCIP Cambodia Pre-Accelerator and Accelerator Program Cohort 2, aimed at promoting CleanTech.

12
2024
19-27 Sept | **UNIIC Demo Day**

Tam Dan won the 1st runner-up position among 16 startup teams from 6 universities at Demo Day, part of the UNIIC, held at the Asia Pacific University of Technology and Innovation in Kuala Lumpur, Malaysia.

Campus Life

Student Clubs

CamTech's is a home to diverse array of clubs and recreational activities. Whether you're interested in sports, arts, technology, or community service, there are countless opportunities to get involved, develop new skills, and make lasting friendships.

CamTech Sports

Engaging in sports fosters teamwork, enabling individuals to collaborate towards common goals while honing leadership skills. It promotes good health through physical activity, enhancing fitness and mental well-being. Sports also teach communication, discipline, and resilience—valuable skills applicable in many life areas.

Industry Partners

Canada Bank was started in 1991 with a single mission – to be Cambodia’s best bank. In the early days, Canada Bank gave its focusses to provide Cambodians with key fundamental banking services for a growing nation. With over \$6.5B in assets, Canada Bank is now focussing on expanding digital offerings and next-generation banking services. The bank looks forward to a future where banking is accessible to all Cambodians, everywhere.

From humble beginnings as a small, family-run business, ISI Group is one of Cambodia’s most respected, successful and diversified corporations. With more than 20 years’ experience, our companies lead markets across the building, construction and technology sectors. ISI’s CSR programs promote positive social change through four key areas: Education, Healthcare, Sports and Housing.

Chip Mong Group takes pride in being one of the corporations in Cambodia that has achieved remarkable growth over the last four decades. Chip Mong has attained prominence as a leader in many fields such as the production of beer and non-alcoholic beverages, construction materials, concrete, roof tiles, cement, consumer products, property development and banking. Chip Mong also continues to explore opportunities to expand their business through hospitality, hotels, the retail sector and much more.

Founded in 1987, Huawei is a leading global provider of information and communications technology (ICT) infrastructure and smart devices. Huawei has approximately 195,000 employees and operates in over 170 countries and regions, serving more than three billion people around the world.

Established in 2008, Mega Asset Management Co., Ltd is a consultancy company in Cambodia, specialized in real estate development. It manages over commercial and residential building, hotel, hospitality, industrial parks and more. Real estate projects under Mega Asset Management’s name include Diamond Island City, Olympia City and Chroy Changvar Satellite City to name a few.

Industry Partners

The Association of Khmer-Chinese in Cambodia is a representative body for the estimated 700,000 Cambodians of Chinese extraction living in the Kingdom.

Techo Startup Center was established with the mission to nurture startups to grow into successful business by enhancing talents' entrepreneurship and innovative capabilities through well-supported programs. The Center also provides mentorship, links to investors, technical assistance related to prototyping and research labs, as well as, training program related to entrepreneurship, business development, pitching and marketing strategy.

Khmer Enterprise is established as an implementation unit of Entrepreneurship Development Fund. It aims to mobilize, invest and manage resources, from all legitimate sources, to support the development of a vibrant entrepreneurial ecosystem and to provide financial and non-financial supports to related entrepreneurial ecosystem builders.

Impact Hub Phnom Penh is part of the larger Impact Hub global network which exists in over 100 locations around the world, sharing the common mission to support and develop social enterprises. Impact Hub Phnom Penh engages with various stakeholders (youth, entrepreneurs, NGOs, private sector and government) to build a holistic entrepreneurship ecosystem and contribute to the Sustainable Development Goals.

Established in 2016, Koh Pich Construction Company (KPCC) is a business division of Diamond Island Development Company Co., Ltd. KPCC has been playing a vital role in designing and building some construction projects within the Canadia Group and providing its customers with construction-related services as consultancy, feasibility study and design.

Drone Khmer Technology

Industry Partners

The Chroy Changvar project is situated on the left-hand side of the east coast of Phnom Penh, next to the Chroy Changvar Bridge, which is the only way Phnom Penh can access the northern and north-eastern regions of Cambodia. This location is ideal for dispersing the population of Phnom Penh's central area. The Chroy Changvar project covers an area of about 200 hectares. It is intended to be a contemporary urban complex in Phnom Penh that mixes shopping, dining, and leisure with culture, massive commercial centers, walking streets, office buildings, residential townhouses and villas.

Founded in 1996 as an import-export and transportation company in Cambodia, Teng Lay Group now includes Teng Lay Import Export and Transport Co., Ltd, and Teng Lay Dry Port which operates in Phnom Penh and Bavet. Teng Lay Group is the B2B partner with more than 300 companies across Cambodia, providing services for inland transportation, customs clearance and brokerage, warehousing and supply chain, container modification, and international freight.

Khmum Technology Co. Ltd is a software company that specializes in e-commerce and point of sales (POS) solution. Its product, Khmum eShop, is an e-commerce platform which sells Cambodian products. Khmum envisions high-quality Cambodian products appearing in store shelves abroad.

Ly Ly Food Industry Co., Ltd. was established in May 2002, with the main focus on manufacturing and selling rice crackers, snacks, and dried fruits and vegetable. Originally beginning with just 20 employees, the company's workforce has now risen to 250. The company's business has expanded to international markets to countries in Asia, Europe, North America and Australia.

The Cambodia Women Entrepreneurs Association (CWEA) started in 2011 with the vision to support the growth of women-owned businesses in Cambodia. Members of the association consist of more than 500 women entrepreneurs who employ approximately 15,000 workers. CWEA provides a platform for women in business to bring issues to the attention of the government, business community, private companies, the public and media for the purpose of improving the business environment.

Industry Partners

Khun Sea Development Group is a private limited company specialized in real estate development

The Dynamic Group has over 25 years of experience with providing wide area of specialty solutions, including technology, pharmaceuticals, healthcare, agro seed and agrochemicals, laboratory, medical hospital, homecare, and construction and industrial chemicals

HMM International Co. LTD

Angkor Social Innovation Park is a non-profit entity affiliated independent body of the Asian Vision Institute (AVI), that aims to develop knowledge on social innovation and provide sustainable and innovative solutions to local Cambodian enterprises.

Jobify is a job matching service, specialized in IT field. The service helps to match IT job seekers with prospective employers and vice versa. With the use of artificial intelligence, the platform helps to find jobs which best match the skills and experiences of the IT job seekers.
